------------------	-------------

1400 – 1450 Hrs.	<b>Creating Humane HR Processes and Practices by balancing High-Tech and High -Touch</b>
------------------	--

	<p><i>The HR function has been successful in leveraging cutting-edge technology including Artificial Intelligence, Machine Learning based predictive and prescriptive analytics, Chatbots, Robotics etc. to deliver critical HR services. While these tools have greatly benefited the HR function and the workforce at large, potential problem areas such as data privacy and bias loom large. These concerns are amplified in the HR context where decisions can have significant impacts on people’s lives. Hence there is an urgent need to balance leveraging these high-tech with human judgment so that the negative impacts of technology can be minimized, and organizations continue to be humane.</i></p> <p><i>The session will bring to the fore the importance of balancing high-tech and high-touch and also discuss how organizations can by create humane HR processes and practices.</i></p> <p><b>Session Moderator:</b></p> <p><b>Mr. Deepak Deshpande</b> Vice President &amp; Head HR Practices Tata Business Excellence Group (Tata Sons)</p> <p><b>Panelists:</b></p> <p><b>Dr. K.
